

The Power of Simplicity

with the BD FACSMelody™ and
BD Rhapsody™ HT Single Cell
Analysis Systems

Single-Cell
Multiomics made
easy for you!

Attain more insights at single cell level with streamlined workflows and support services from our experts: from experimental design to creation of libraries and data analysis in order to better serve your evolving needs.

Expand your experimental power with our simplified innovative technologies

1

Wide Range
of Antibodies

Versatile, **bright and clean** fluorochromes with BD Horizon™ dyes for flow cytometry.

2

Cell Sorting with
BD FACSMelody™

Easy to use cell sorter with automation of complex tasks & guided procedures for minimum flow expertise. Proven & trusted brand backed up with over 1,700 cited publications to date.*

*Google Scholar™: https://scholar.google.com/scholar?hl=en&as_sdt=0%2CS&q=FACSMelody&btnG= (Accessed December 2023. Search Criteria: FACSMelody)

3

BD Single Cell
Analysis System

Fast track single-cell research with **gentle cell treatment** high throughput micro-well base technology.

4

Software &
Data Analysis

Bio-informatics data analysis software and support packages to understand complex biological systems.

Get your package at an attractive deal!

**Applicable to selective countries and cannot be combined with other offers.

Product Name	Catalogue Number
BD FACSMelody BR, Plate EU 4way	653888
BD FACSMelody BRV 9 Color Plate EU 4way	664326
BD Rhapsody™ HT Xpress System	666625
BD Rhapsody™ Scanner	633701

Over 40 years of experiences in cell analysis, and we keep on learning every day!

Get support on experimental design from our knowledgeable experts; application, bioinformatics and technical teams, to better service your evolving needs.

- Cell separation strategy (cell sorting & sorting strategy)
- Single cell preparation
- Antibody labeling (for sorting, cite-seq and multiplexing)
- Single cell capture & library preparation
- Data analysis and interpretation

Scan the barcode with your phone for an Augmented Reality (AR) 3D model view.
